PREMIUM STOPPING PERFORMANCE.

Wagner OE^x features patented vehicle-specific profile and slotting designs engineered to provide best-in-class braking performance for Pickups, SUVs and CUVs.

CUSTOMIZED SHAPE AND SLOT DESIGN CREATES TURBULENT AIRFLOW

ALLOWS FOR COOLER OPERATION AND IMPROVED STOPPING POWER

WagnerBrake.com

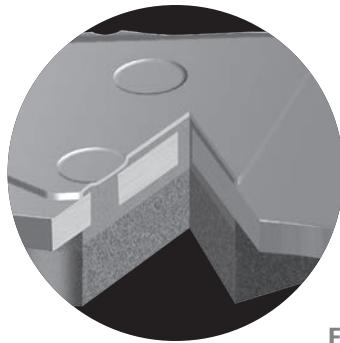

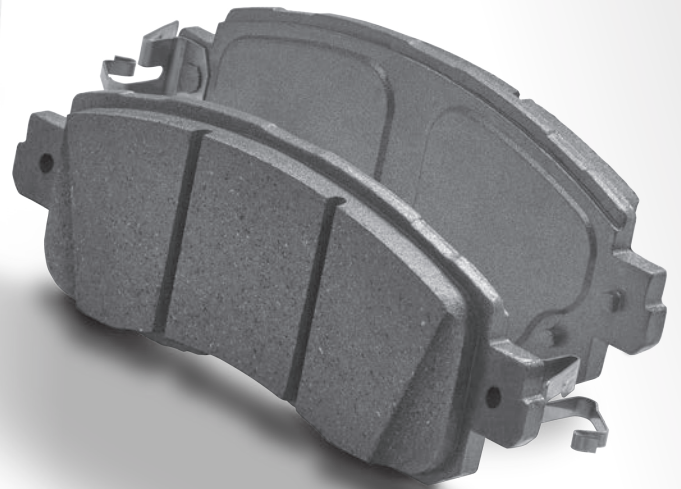

*Results based on internal testing comparing Wagner OE^x to other Wagner offerings. Hardware included. Product configuration varies by application.

WAGNER | TQ[®]

THE QUIETER, ONE-PIECE BRAKE PAD.

Wagner ThermoQuiet[®] features a unique Integrally Molded Insulator (IMI[™]) that integrates the friction material, backing plate and insulator into a single high strength component. The application-specific design spreads out heat, sound and vibration over a much larger surface area for quieter operation.

WAGNER THERMOQUIET[®] CERAMIC^{NXT}[®] features

The One-Piece Brake Pad — exclusive Integrally Molded Sound Insulator (IMI[™]) dissipates heat and vibration for quieter braking.

Exclusive Wagner OE21 low copper formulations set new benchmarks for our ceramic pad performance

WAGNER[®]

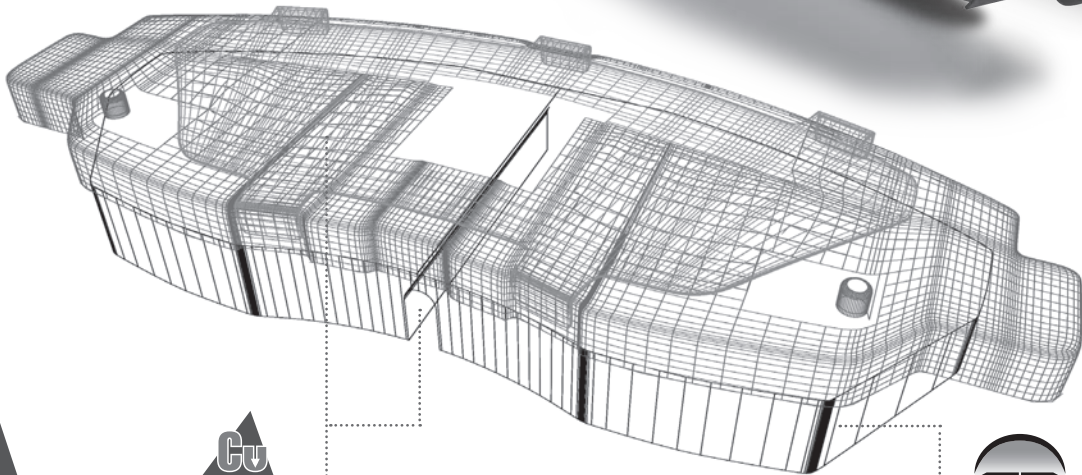

WagnerBrake.com

Wagner OE21 low copper formulations compared to our previous ceramic pad performance. Results may vary by application.

WAGNER | QS™

RESTORING LIKE-NEW BRAKING PERFORMANCE.

Wagner QuickStop® application-specific brake pads are designed, tested and certified to ensure a vehicle's braking system will be restored to original equipment performance.

Application-specific shims, chamfers and slots reduce noise causing vibration; low copper 2021 compliant friction formulations

100% OE post-curing process ensures optimal friction performance throughout the life of the pad

WAGNER®

WagnerBrake.com

WAGNER | SD™

ENGINEERED FOR THE EXTREME.

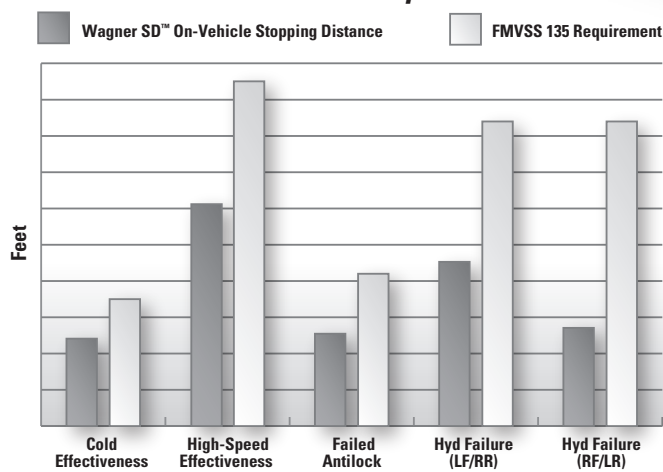

Wagner® SevereDuty™ brake pads are exclusively engineered for vehicles driven in extreme environments. These dependable and durable friction products meet or surpass stringent testing and quality standards for fleet and municipality vehicles.

Hardware included on specific applications.

THE RIGHT HARDWARE EVERY TIME

The key to doing a quality brake job is doing it "right" the first time. Worn or fatigued brake hardware may be the cause of premature brake wear. For maximum brake life and performance, install new brake hardware kits from Wagner Brake to complete every job.

- Maintains proper movement for safe, effective stopping performance
- Helps deliver a quieter braking system
- Produces smoother pedal travel

COMPREHENSIVE COVERAGE

The Wagner Brake hardware offering provides comprehensive coverage for Foreign and Domestic nameplates to complete most brake jobs. Featuring...

- Over 2,000 Disc, Drum and ABS Brake Parts
- Disc Align Kits, Combi-Kits, Adjuster Spring Kits, Guide Pins, Pin Boot Kits and Auto Adjuster Kits

WagnerBrake.com

Product configuration varies by application.

PREMIUM HYDRAULICS

Wagner Brake continues to set the industry standards for premium hydraulics with engineering expertise and exceptional quality control. Our hydraulics components follow Original Equipment material and design specifications, and are manufactured and tested to meet or exceed SAE standards.

COVERAGE

- Comprehensive coverage for foreign, domestic, passenger car, light trucks, SUVs and vans
- Aggressive ongoing range expansion initiative

PREMIUM HYDRAULICS INCLUDE:

- Master Cylinder
- Brake Cable
- Wheel Cylinder
- Clutch Master
- Brake Hose
- Clutch Slave

PRE-FILLED CLUTCH HYDRAULIC SYSTEMS

Complete systems are pre-filled with fluid and pre-bled to help simplify repairs and save time. These hydraulic systems include clutch master cylinder, clutch slave cylinder, fluid lines, reservoir and fluid. In addition, hard-to-bleed concentric slave cylinders are shipped pre-filled and pre-bled.

PREMIUM ROTORS FOR PREMIUM BRAKE PADS

Wagner premium brake rotors are engineered for maximum performance and are an ideal pairing for Wagner premium brake pads. With a turned smooth surface finish for proper pad seating, an E-Shield[®] electrostatically-applied protective coating and tight tolerance specifications, Wagner provides service professionals with the premium product they need to get the job done right the first time. And it's all enclosed within a Vapor Corrosion Inhibitor (VCI) bag, reducing prep and installation time.

PROPER BALANCE

- A precision-cut finish of the outer diameter of the rotor prevents improper balance issues that may result in vehicle control loss

TURNED/SMOOTH SURFACE FINISH

- A smooth finish aids in the proper seating of the friction
- Less time needed for pad "break-in"

UNIQUE VANE DESIGN

(application specific)

- Provides greater cooling capabilities for more effective stopping power
- Helps control noise, vibration and harshness (NVH), resulting in smoother braking

E-SHIELD[®] COATING

- E-Shield[®] coating is electrostatically-applied to all non-braking surfaces which prevents corrosion
- Visually attractive coating is ideal for open spoke wheels

TIGHTER TOLERANCE SPECIFICATIONS

- Reduces thickness variation and lateral run-out and ensures a balanced rotor
- Reduces pedal pulsation, brake noise and extends life of pads

SUPERIOR METALLURGY

- Wagner Brake utilizes a combination of premium grade iron, a stringent casting process and a controlled manufacturing environment which results in superior performance

VAPOR CORROSION INHIBITOR (VCI) BAG

- Ready to install right out of the bag – no additional rotor prep necessary
- Eliminates potential oil residue which may affect pad performance
