

# JOIN OUR EUROPEAN GRADUATE PROGRAM

# READY TO DEVELOP YOUR POTENTIAL

A world of possibilities awaits you to become part of a professional environment that promotes **PERSONAL SUCCESS AND CAREER GROWTH.**

Federal-Mogul Motorpart's **EUROPEAN GRADUATE PROGRAM** is designed to offer opportunities for cross functional experience and a chance to work with high quality products and globally recognized brands the company supplies to vehicle and transportation manufacturers and the aftermarket.

Located in manufacturing sites, administrative offices and distribution facilities **ACROSS EUROPE**, we offer a range of graduate opportunities that will grow your professional skills and expertise.

START YOUR PERSONAL JOURNEY IN  
**ENGINEERING & MANUFACTURING**  
**INFORMATION SYSTEMS**  
**PURCHASING**  
**OPERATIONS & LOGISTICS**  
**SALES & MARKETING**  
**FINANCE**  
**RESEARCH AND DEVELOPMENT**  
**HUMAN RESOURCES**

# READY TO **DISCOVER THE CONTINENT**

Starting every year in September, the **EUROPEAN GRADUATE PROGRAM** offers a two years development program to gain the skills for future management challenges.

Within the duration of the program you will work in up to three different sites all across Europe on your own challenging projects — always mentored by one of our experienced managers. Your projects will start in your home facility for six months where after there will be opportunities to be located in other European sites. We would like you to end the program in your home site where you will continue to fulfil your development potential in your final program quarter. An individual intensive learning and development plan will be created to support your personal growth and **HELP YOU TO START YOUR PROFESSIONAL CAREER.**

Our teams will be available to help and guide you through your journey to become an important part of our company.

# READY TO BE UNITED BY DRIVE

We look at our future in terms of momentum — the fusion of speed, direction and mass. We have the speed to deliver products to market and the scale to impact the entire world. The direction takes all of us. If we can work together to improve products, increase efficiencies and serve our customers better, our greatest days lie ahead.

We do our best work together, sharing global best practices, building on each others' ideas, and learning and growing together. We are flexible and responsive, partnering to arrive at better, faster and smarter solutions.

We take pride in our accomplishments and have fun celebrating our progress — big and small — every day. We invest the time to get to know one another, which further motivates us all to succeed.

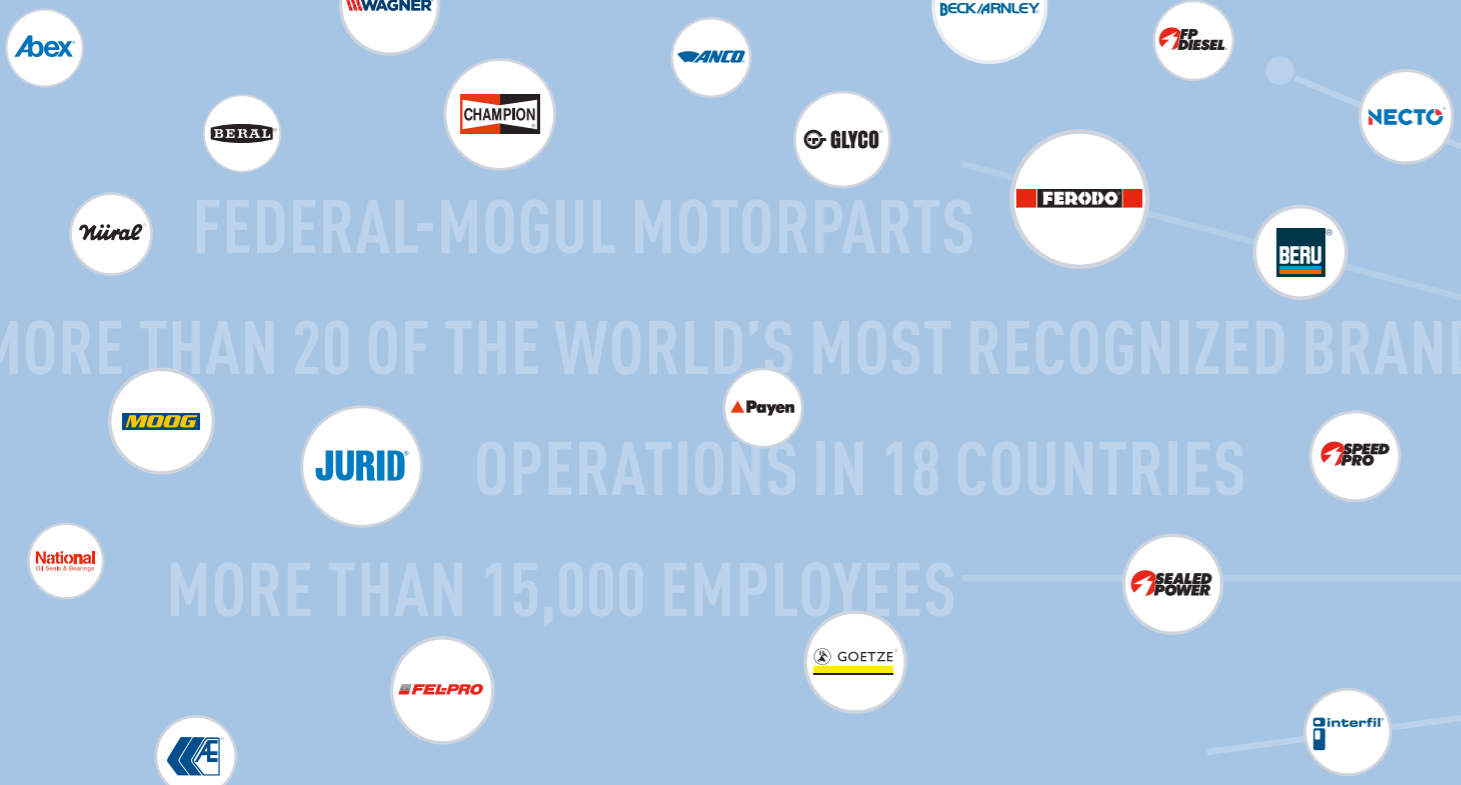

We value and are receptive to others' ideas and contributions. We listen and align our approach to the specific business priorities and needs of our partners and customers.

We own our actions and keep our commitments, thus building trust and confidence with each other and our customers. We earn the trust others put in us and continually seek opportunities to reinforce it by creating real value.

We don't automatically seek the easy or expected answer, which means that we are constantly challenging each other and stretching our creativity to push ourselves out of our comfort zones. Our entrepreneurial spirit drives us to dream bigger and identify opportunities that resolve — and go well beyond — current challenges.

We dedicate ourselves to our work, the safety of our practices, and the quality and reliability of our products and services. We strive to do the right thing, and are honest and transparent when we can do better.
